TSINGHUA UNIVERSITY

🚨KENT MADSEN🚨

Ah, I think I understand why you deleted the post about ZACHARIAH QURESHI now, @IntelPointAlert!

Let me guess, you deleted it because Karol Markowitzbaumsteingold “got the call” from the EPIC VENTURES crew, amirite?

You know, that’s “the call” where JEWS AND ROMNEY MAFIA MOSSAD ASSETS HAVE YOU DELETE EVERYTHING YOU POSTED IMMEDIATELY, because they suddenly realized it LEADS RIGHT BACK TO THEM AND LITERALLY EVERYONE ELSE WE’VE ALREADY FUCKING MENTIONED and now the GOYIM are doing TOO MUCH NOTICING™!

🚨By “where it leads”, I mean DIRECTLY to the LDS MAFIA, because ZACHARIAH QURESHI is on of the CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS’S most important ARABIC-SPEAKING OPERATIVES, who literally did the LIVE DICTATION for the SEMI-ANNUAL LDS GENERAL CONFERENCE, was a “FOREIGN POLICY RESEARCH INTERN” for THE HERITAGE FOUNDATION, a “BUSINESS ANALYST INTERN” for HUNTER STRATEGY and now works for KENT MADSEN at EPIC VENTURES too, amirite?

🚨NOTE: That’s the SAME KENT MADSEN who’s been involved with TSINGHUA UNIVERSITY in CHINA since 1996.

*The SAME KENT MADSEN who has been a DIRECTOR/ADVISOR at ZIONS BANCORPORATION (SWITCH DATA - PEGASUS/NSO/UNIT 8200, US CAPITOL POLICE, CROWDSTRIKE, JP MORGAN, CLOUDFLARE, AT&T, VERIZON, SALESFORCE, etc.) for NEARLY TWO DECADES.

*The same KENT MADSEN who is ALSO an INVESTOR in XAI and who literally IMPLICATES THE EXACT FUCKING PEOPLE I’VE BEEN HAMMERING FOR YEARS for CREATING, RELEASING AND COVERING UP THE COVID BIOWEAPON, released by MOSSAD (and GLOBAL JEWRY) and their CCP COUNTERPARTS in CHINA, to SPECIFICALLY TARGET the WHITE, EUROPEAN RACE in AMERICA and all across the globe.

Including…

🚨TSINGHUA UNIVERSITY in CHINA, the TSINGHUA SEM ADVISORY BOARD of JEWS/CCP OPERATIVES and those neat little “SCHWARZMAN SCHOLARS”, who are funded by STEPHEN SCHWARZMAN, FOUNDER & CHAIRMAN of BLACKSTONE GROUP.

*FUN FACT 1: Tsinghua University officially MERGED ITS PRESIDENT'S OFFICE with the CHINESE COMMUNIST PARTY in 2024 and the CCP now RUNS THE UNIVERSITY! Neat!

*FUN FACT 2: JEW/CCP COLLUSION at Tsinghua University is IN ADDITION to these traitorous FUCKING JEWS already being involved with the CCP at DUKE KUNSHAN UNIVERSITY in WUHAN, CHINA as well.

🚨THE HERITAGE FOUNDATION (UJA/MOSSAD/GCHQ/NATO), which is CHAIRED by BARB VAN ANDEL-GABY, DIRECTOR of AMWAY PARENT COMPANY, ALTICOR.

*Reminder: AMWAY = Betsy DeVos (a TPUSA/Charlie Kirk financier), the SISTER of ERIK PRINCE from BLACKWATER/CONSTELLIS (Krongard/Apollo Global Management/Sept 11/Bremer/Kissinger).

🚨PS: I DO have to admit, it's a little dishonest of ZACHARIAH to just list his HUNTER STRATEGY INTERNSHIP on his LINKEDIN, especially considering he's also on the HUNTER STRATEGY LLC. BUSINESS FILING DOCS, with a DISSOLUTION DATE that was MONTHS AFTER his supposed HUNTER STRATEGY INTERNSHIP ENDED.

In fact, HUNTER STRATEGY LLC. actually DISSOLVED on NOVEMBER 30, 2022… right after these traitorous fucking JEWS/MORMS had successfully STOLEN THE 2022 ELECTIONS IN AZ.

What a STRANGE COHENCIDENCE™, folks.

Schwarzman Scholars

Article Talk

‹ The template *Infobox university* is being considered for merging. ›

Schwarzman Scholars (Chinese: 苏世民学者; pinyin: *Sūshìmín Xuézhě*), founded by American financier and philanthropist Stephen A. Schwarzman, is a one-year fully-funded master's degree leadership program at Tsinghua University in Beijing, China.[3][4][5] The program selects 100–200 scholars per year based on their leadership ability, academic achievement, and commitment to advancing mutual cultural understanding and global progress.[6] Selected scholars pursue a one-year master's degree in global affairs at Tsinghua University, residing at Schwarzman College.[7]

Schwarzman Scholars 苏世民学者	
Type	Private
Established	2016; 9 years ago
Endowment	$575 million
Chairman	Stephen A. Schwarzman
Dean	Xue Lan
Director	Amy Stursberg
Students	100–200
Location	Beijing, China
Campus	Urban
Language	English
Colors	Blue, Purple, Gold, and White[1][2]
Affiliations	Tsinghua University
Website	www.schwarzmanscholars.org

Chinese name	
Simplified Chinese	苏世民学者
Traditional Chinese	蘇世民學者
Transcriptions	[show]

The program launched in June 2016, upon the completion of Schwarzman College at Tsinghua University, located in Beijing, China[8][9] and is housed in a college designed by Robert A.M. Stern, Dean of the Yale School of Architecture. It hosts up to 200 scholars annually from the United States, China, and other countries around the world. Schwarzman Scholars has an acceptance rate comparable to the Rhodes and Marshall scholarships, making it one of the most

Tsinghua with a concept for a "Global Scholars" program. At the time, Schwarzman was on the advisory board of Tsinghua University's School of Economics and Management. A year later in 2011, a delegation from Tsinghua visited Schwarzman in New York where the concept was put on hold until the leadership at Tsinghua had changed (the term of the then-executive administration was ending) and the 2008 financial crisis had receded.[16]

In 2012, the newly appointed Tsinghua president Chen Jining met with Schwarzman in Paris. Schwarzman, who was interested in moving forward with the concept, put forth six ideas that would "reduce friction" for the new program. First, the college would need its own physical facility. Second, the program would need to be immersive, including travel and field work across the country with professors. Third, the program would assign mentors to each of the scholars in their area of interest. Fourth, there had to be no cost to the scholars. Fifth, the program would only be one year instead of two or three years long. Sixth and last, the program would be taught in English. Schwarzman told Chen:

> If we do this, what I really want to do is construct a program that has the same prestige as the Rhodes, because those are the students that I'm aiming for.[16]

With 200 scholars per year, he envisioned an alumni network of 10,000 scholars within a half century to include future heads of state and government.[17] In spring of 2013, the program was announced at the Great Hall of the People, the seat of the National People's Congress in Beijing, China, and began its fundraising campaign.[citation needed]

Fundraising

In 2013, Stephen A. Schwarzman announced a $100 million personal gift and $200 million fundraising campaign to build and endow Schwarzman Scholars, an elite international scholarship program at Tsinghua University in Beijing.[citation needed] Over $575 million has been raised to date, from a coterie of global donors.[18][19][20][21]

In spring 2014, Peking University, Tsinghua's chief rival, announced its own global scholarship program, the Yenching Scholars at Yenching Academy, further increasing competition for funding. In summer 2014, Tsinghua University announced it had reached its original fundraising goal and that it would increase it to US$350 million. In 2014, when the program first launched its admissions process, Tsinghua's Schwarzman had already raised US$333 million for its endowment fund. Shortly after a third target of US$400 million, to be reached by the following year, was announced. Commenting on the fundraising competition, Charles Conn, former warden of Rhodes House at Oxford University remarked:

Approximately 40% of the participants come from the U.S., 20% from China and 40% from the rest of the world. Students apply directly to the program and are not required to obtain a nomination from their university. The Institute of International Education in the U.S., which administers the Fulbright Scholarships, was initially responsible for the international and American selection processes. This process is now managed by the program's Admissions team.[31]

Prospective applicants with passports and permanent resident cards from Mainland China, Hong Kong, Macau, and Taiwan, are required to apply earlier than applicants from other countries using a different online application portal, regardless of where they may have attended university or reside.[32]

Cohorts

The program is based on a cohort system, where admitted students live, dine and study together in a close environment, similar to the collegiate system in some British Universities. In 2014, Schwarzman Scholars held four recruitment launch events in New York City (at the Morgan Library & Museum), Singapore (introduced by National University of Singapore President Tan Chor Chuan), London (at the Tower Bridge, introduced by Oxford University Vice-Chancellor Andrew D. Hamilton), and Palo Alto in the San Francisco Bay Area (at Stanford University).[33][34][35][36]

The inaugural cohort of 111 scholars was announced on January 10, 2016, and selected from a group of roughly 3,050 applicants.[37] With an acceptance rate comparable to the Rhodes and Marshall scholarships, the founding class included five graduates of Princeton,[38] five students from Yale,[39] and six alumni of Harvard.[40]

Leadership and governance

International advisory board

- The Right Honorable Tony Blair, former prime minister of the United Kingdom (honorary)
- The Right Honorable Brian Mulroney, former prime minister of Canada (honorary)
- The Honorable Kevin Rudd, former prime minister of Australia (honorary)
- Henry "Hank" Paulson, 74th United States Secretary of the Treasury (honorary)

Tsinghua SEM Advisory Board holds 2024 meeting

2024-10-31 View: 1655

Tsinghua University School of Economics and Management (Tsinghua SEM) held its 2024 Advisory Board Meeting on October 25, 2024. It was the board's 25th annual meeting since its establishment. A total of 22 board members attended the meeting, 18 of whom were from China's Hong Kong region and foreign countries. Chinese Vice Premier Ding Xuexiang met with representatives of the advisory board at the Diaoyutai State Guesthouse in Beijing in the morning.

sem.tsinghua.edu.cn

Citing the country's abundant development opportunities, Apple CEO Tim Cook, chair of the advisory board, said that Apple is willing to expand investment in China -- to achieve mutual benefits and win-win outcomes.

Zhou Xiaochuan, vice chairman of the Boao Forum for Asia and China's chief representative to the Boao Forum, vice chairman of the 12th National Committee of the Chinese People's Political Consultative Conference (CPPCC) and former governor of the People's Bank of China; Wang Zhijun, deputy secretary-general of the State Council; Ma Zhaoxu, China's vice foreign minister; Liu Mingkang, chairman of the former China Banking Regulatory Commission; Xiao Yanshun, deputy director of the Research Office of the State Council; Xiong Sihao, China's vice education minister; Qiu Yong, secretary of the CPC Tsinghua University Committee; Li Luming, president of Tsinghua University and vice chairman of the advisory board; Gu Binglin, director of the Institute of Advanced Study at Tsinghua University and former president of Tsinghua University; Yang Bin, vice president of Tsinghua University; Qian Yingyi, vice chairman of the advisory board of Tsinghua SEM, distinguished professor of Arts, Humanities and Social Sciences at Tsinghua University and fourth

In 1966, the efforts of Tsinghua researchers were critical in China's transition from vacuum-tube computers to fully transistorized computers.[32]:101
From 1966 to 1976, China experienced immense sociopolitical upheaval and instability during the Cultural Revolution. Many university students walked out of classrooms at Tsinghua and other institutions, and some went on to join the Red Guards, resulting in the complete shutdown of the university as faculty were persecuted or otherwise unable to teach.[33][34] It was not until 1978, after the Cultural Revolution ended, that the university began to take in students and re-emerge as a force in Chinese politics and society.[35]
During the Criticize Lin, Criticize Confucius campaign of 1973 to 1976, critique groups formed at Tsinghua and Peking University disseminated commentaries under the pseudonym of "Liang Xiao".[36] The pseudonym sounds like a person's name but is a homophone for "two schools".[36]
In the 1980s, Tsinghua evolved beyond the polytechnic model and incorporated a multidisciplinary system emphasizing collaboration between distinct schools within the broader university environment.[37] Under this system, several schools have been re-incorporated, including Tsinghua Law School, the School of Economics and Management, the School of Sciences, the School of Life Sciences, the School of Humanities and Social Sciences, the School of Public Policy and Management, and the Academy of Arts and Design.[10]
In 1996, the School of Economics and Management established a partnership with the Sloan School of Management at the Massachusetts Institute of Technology. One year later, Tsinghua and MIT began the MBA program known as the Tsinghua-MIT Global MBA.[38]
In 1996, the School of Economics and Management established a partnership with the Sloan School of Management at the Massachusetts Institute of Technology. One year later, Tsinghua and MIT began the MBA program known as the Tsinghua-MIT Global MBA.[38]
In 1998, Tsinghua became the first Chinese university to offer a Master of Laws (LLM) program in American law, through a cooperative venture with the Temple University Beasley School of Law.[39]
21st century
Tsinghua alumni include the current General Secretary of the Chinese Communist Party and paramount leader of China, Xi Jinping '79, who graduated with a degree in chemical engineering, along with the CCP General Secretary and former Paramount Leader of China Hu Jintao '64, who graduated with a degree in hydraulic engineering. In addition to its powerful alumni, Tsinghua has a reputation for hosting globally prominent guest speakers, with international leaders Bill Clinton, Tony Blair, Henry Kissinger, Carlos Ghosn, and Henry Paulson having lectured to the university community.[40]
As of 2018, Tsinghua University consists of 20 schools and 58 university departments, 41 research institutes, 35 research centers, and 167 laboratories, including 15 national key laboratories.[41] In September 2006, the Peking Union Medical College, a renowned medical school, was renamed "Peking Union Medical College, Tsinghua University" although it and Tsinghua University are technically separate institutions.[42] The university operates the Tsinghua University Press, which publishes academic journals, textbooks, and other scholarly works.[43][44]
In December 2014, Tsinghua University established the Advisory Committee of Undergraduate Curriculum (ACUC).[48] It became the first student autonomous organization in mainland China for students to participate in the school's management.[49] The Tsinghua University Academic Committee, which was formally established on 8 July 2015, has stipulated in the committee's charter that students should be consulted through the ACUC for resolutions involving undergraduate students.[50] From then on, Tsinghua commenced a new round of academic reform lasting ever since, including establishing GPA grading system,[51] adding the writing classes, critical thinking classes, second foreign languages classes into curriculum,[52] requiring undergrads to be able to swim before graduation,[53] cooperating with the Peking University on class cross-registration to supplement each other's general education curriculum,[54] reducing fees on class withdraw, transcripts and certificates,[55] and adjusting the graduate school co-terminal admission policies.[56]
In 2016, Schwarzman Scholars was established with almost US$400 million endowment by Steven Schwarzman, the chairman and CEO of the Blackstone Group and other multinational corporations and global leaders. Schwarzman Scholars annually selects 100–200 scholars across the world to enroll in a one-year fully-funded master's degree leadership program designed to cultivate the next generation of global leaders. 40% students are selected from the United States, 20% students are selected from China, 40% are selected from rest of the world. These scholars reside on the university campus at Schwarzman College, a residential college built specifically for the program.[57][58]
In 2016, Tsinghua's expenditures were RMB 13.7 billion (US$3.57 billion at purchasing power parity), the largest budget of any university in China.[59] According to a 2018 Financial Times report, Tsinghua University has been linked to cyber-espionage.[60]
In 2024, Tsinghua announced that its office of the university president had merged into the university's Chinese Communist Party committee, which would directly administer the university henceforth.[61]

@CagedLionPhilos @DakotaSidwell @KettyLuvz Fuck John Solomon Jew and FOX Jews (CNAS).

About

In June, 2017 I retired as the President of the Canadian Spondylitis Association, a volunteer position I held for ten years from the inception of the Association. In March, 2011, I retired from the financial services industry after a 35 years career in commercial and corporate banking, private banking and wealth management. I have now retired from nearly all my volunteer roles, except with ASIF, the
